

SNOWDON MOUNTAIN RAILWAY

Invites you to enjoy our Heritage Steam Experience 2017

For pre-booked groups of 25+ passengers.
Available from 1st May 2017 to 30th September 2017.

Visit Hafod Eryri, the award-winning Snowdon Summit Visitor Centre, by travelling on our unique Victorian railway in either the 'Snowdon Lily' or the 'Snowdon Mountain Goat' observation carriages.

Ascend Snowdon in style on our Heritage Steam Experience. Our spacious steam carriages (The Snowdon Lily and Snowdon Mountain Goat) are recreations of the original 1896 coaches and still use the original chassis, with new bodywork made from hi-tech modern material. Pushed by one of our original Swiss steam locomotives which have been operating since 1896, this service seats up to 34 passengers per train, offering a spacious and comfortable journey. With a 30 minute stopover at the Summit and an overall two and a half hour round trip, this is an adventure not to be missed. Also available, our 72 seat theatre showing a free 15 minute film presentation on the history of the railway followed by the wonderful original cartoons of 'Ivor the Engine', souvenirs and gifts from our retail shops at Llanberis and the Summit of Snowdon, hot and cold refreshments from our catering outlets at both Llanberis and at the Summit.

Railway Services 2017

The Heritage Steam Experience operates from 1st May to 30th September 2017. The Traditional Diesel Service operates every day from Friday 17th March 2017 to the end of October 2017 (subject to weather conditions). At the beginning of the season trains will only run to Clogwyn (¾ of the way to the Summit) until the Summit can be accessed.

Journey Durations

The Summit Service can last up to two and a half hours which includes a stop of approximately 30 minutes at the Summit. All services to Clogwyn can take up to two hours which includes a stop of approximately 30 minutes where the open mountainside offers stunning views. Please note: There are no facilities of any kind at Clogwyn.

Terms and Conditions

Groups are required to arrive 45 minutes before departure to allow sufficient time for comfort visits (there are no facilities on the trains), collection and distribution of tickets, watching the 15 minute audio-visual presentation and boarding the train. Train departures cannot be delayed to allow for late arrivals as timings are critical for single track operation on the mountain and it may not be possible for bookings to be moved to later trains due to limited capacity. Low cloud and poor visibility do not stop the train from travelling.

Booking Procedure

To qualify for group rates your party will need to be comprised of 25 or more fare paying passengers. Any bookings that are amended to below 25 passengers will be liable to pay the full fare. Groups need to book in advance to guarantee a time slot. Your group must pay prior to travel or on the day, in one transaction, at the ticket office. Registered coach operators and group travel agencies wishing to be invoiced for the balance can call for information regarding an account. Existing account customers do not need to re-apply. We have introduced a dedicated group booking line, so call a member of our team now on 01286 873498 to make your booking.

Cancellations, Non Arrivals and Late Arrivals

Where cancellations are made close to the day of travel we will make every effort to re-sell your seats but, if this is not possible, the group will be charged for the remaining balance of the unsold seats. Due to limited capacity and high demand, tickets for groups who have not arrived 30 minutes before departure will be offered for re-sale in the ticket office and the cost of any un-sold tickets will be charged to the group. Whilst we do everything possible to re-schedule, if circumstances permit, this is not always possible due to demand for seating.

Additional Information

Wheelchairs can be accommodated on all of our steam carriages but capacity is limited so please call for further information. Only registered service dogs may be carried on trains. The company reserves the right to close, temporarily withdraw or alter any of the facilities at any time without prior notice for technical, capacity or operational reasons or inclement weather.

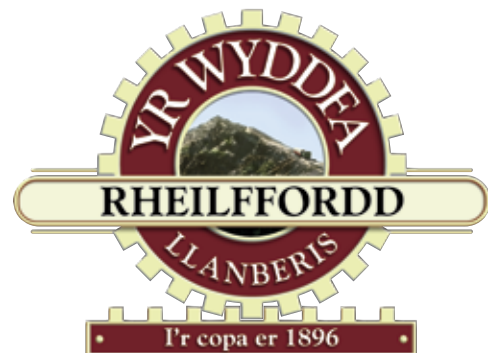

Weather Conditions

The weather on Snowdon is very unpredictable and can change very quickly. Trains cannot proceed all the way to the Summit if weather conditions become severe i.e. high winds or snow and ice on the track. In such cases trains will terminate at Rocky Valley which is 5/8 of the way to the Summit. Unfortunately, when there are severe winds on the mountain, we cannot allow passengers to disembark at Rocky Valley.

Diolch yn Fawr/Many thanks
