

A JOURNEY LIKE NO OTHER

EST. SNOWDON MOUNTAIN RAILWAY 1896

TRADITIONAL DIESEL SERVICE 2026

For pre-booked groups of 25+ passengers. Available from March to October.

Visit Hafod Eryri, the award-winning visitor centre on the summit of Yr Wyddfa (Snowdon), by travelling on our unique Victorian railway in a traditional diesel train.

Enjoy a relaxed and scenic journey on our heritage diesel service. Between 1986 and 1992 the railway introduced four British-built diesel locomotives: *Ninian*, *Yeti*, *Peris* and *George*. Each is powered by a turbocharged Rolls-Royce six-cylinder engine and was built by the Hunslet Engine Company of Leeds, offering a comfortable way for groups to experience the spectacular route to the summit.

- Operates daily from 28th March to 25th October 2026
- Each train seats up to 60 passengers
- Summit return journey of 2 ½ hours
- Clogwyn return journey of 2 hours

Drop off point at station forecourt
Coach parking at Lakeside and Slate Museum
